 Subject: searches and others

Mom,

I have never taken the opportunity to apologize to either Ron or yourself for lying to you about my infidelity to Laci. I am truly sorry that I was not forthcoming with you immediately. I know that both our goals is to find Laci and Conner, I am hoping together we can do more than separate.

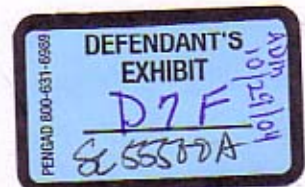

I understand you are organizing a search this coming weekend, and you know that we are trying to put together a national search day this Sunday (I have attached the rough draft of the press release). I am wondering if you want to keep the two separate or try to combine them. Have you spoken with Sergeant Cloward, and has he given you an idea on where to search? I am hoping that any search is one that directs people's efforts towards finding her safely, targeting medical institutions, houses and the like, the only possible end to this is them back in our arms.

I received the change of address form for the fund and obviously will not contest this.

I also received a message from detective Grogain regarding the lamps and photos, of course I am willing to share any photos with you, Laci loves her lamps and they should be in our home when we bring her home.

For all of us, and more important for Laci we need to find her and bring her back where she belongs, among us, we can do this if we can communicate and work together.

Scott

National Search for Laci Day

**Sunday February 9th
2:00 PM Local Time**

We need your help!

On Sunday, February 9th, we are conducting a nationwide search for Laci Peterson. We need the help of all companionate individuals and groups.

Search areas will be in your immediate area, and to be determined by you. We are only asking for 20 minutes of your time, we need your help.

Of particular interest, due to the impending birth, is notification of all medical care facilities (especially birthing centers). Within cities please search your block, checking any areas where she may be, in rural areas please look into any natural areas, outbuilding and the like for our beloved missing family member.

With the participation of the nation we will be able to cover a tremendous amount of territory and bring her home to her loving family.

To signify your efforts and recognize those working towards bringing Laci home we ask that all persons participating attempt to wear a yellow and blue ribbon on their left chest. Yellow and blue clothing is also encouraged.

Laci has been missing since Christmas Eve, on the 9th she will be 7 days from her due date. She is 5'1", brown hair (shoulder length) and eyes with a light brown complexion.

We have two numbers for information you may discover:

**1-866-Laci-Info -a non-police tip line
1-209-342-6166- Modesto Police Tip Line**
