Enclosed is my receipt from Austin's on 12/24/02.

After I found the Peterson's dog and put it back in their yard, I went in briefly to wash my hands at my house. I then went to Bank of America, couldn't find a parking spot so then drove to Austin's.

I have retraced my trip & timed it, from the time I found the dog to parking at Austin's. I approximated the time it took was about 11 minutes.

I was in Austin's for 5 minutes before I made my purchase. I went to the second cash register furthest away from the front door.

So, I estimate that I found the dog at 10:18 a.m., based on the receipt and working the timing backwards.

If you need any more info, please call me at 480-1744.

Thanks -
